

Absolute Scanner AS1-XL

Key features

An extra-wide scan line, large standoff and high measurement speed combined with advanced SHINE technology for intelligent data handling – the AS1-XL is a quantum leap forward for the non-contact measurement of large surfaces.

Absolute Scanner AS1-XL specifications

Accuracy (sensor)*	0.134 mm ($P_{Form.Sph.1x25;0D5}$)
Point acquisition rate	up to 1.2 million points/s
Points per line	max. 4000
Line rate	max. 300 Hz
Line width (mid)	600 mm
Standoff	700 ± 300 mm
Minimum point spacing	0.080 mm
System scanning certification	yes
Laser class	2
Operating temperature	5–45°C
Weight	0.46 kg

* See the AS1-XL SSA column in the specifications table for the complete Scanning System Accuracy (arm + scanner)

Absolute Arm 7-Axis

Key features

Absolute Encoders

Exclusive to Absolute Arm, no referencing needed: power on and measure.

Advanced construction

High-end carbon-fibre ensures thermal stability and uneven tube lengths typical in industrial robot design make the arm lighter to use.

Sensor recognition

Change touch probes or mount sensors on the fly without realignment.

Total protection

Full IP54 rating is standard on all Absolute Arm models for measurement in challenging environments.

Asset management

Compatibility with the Metrology Asset Manager solution allows remote real-time status and performance monitoring in the field.

Handling grips

Ergonomic infinite-rotation grips minimise operator fatigue, ensure thermal stability and maximise accuracy.

Zero-G counterbalance

Effectively balances the arm while minimising torque in the arm's base, making movement effortless.

Control packs (WiFi and battery)

Boost functionality with full scanning performance over WiFi or single-cable connection (USB or Ethernet) and battery power (hot-swappable dual battery pack).

RDS SMART

Proprietary software featuring Self-Monitoring Analysis and Reporting Technology that manages the arm in the field by monitoring diagnostics including shocks and temperature changes.

RDS Quick Measure

Built-in utility program allows basic measurements without additional software.

24-month warranty

As standard on all Absolute Arm systems.

Worldwide service

Our network of Hexagon service centres around the world can provide local support and servicing for arms and all compatible sensors.

⁴P_{FORM} Maximum permissible probe deviation, shape – according to ISO 10360-12:2016

⁵SSA Scanning System Accuracy: L_{DIA} according to ISO 10360-8 annex D

Hexagon is a global leader in digital reality solutions, combining sensor, software and autonomous technologies. We are putting data to work to boost efficiency, productivity, quality and safety across industrial, manufacturing, infrastructure, public sector, and mobility applications.

Our technologies are shaping production and people-related ecosystems to become increasingly connected and autonomous – ensuring a scalable, sustainable future.

Hexagon's Manufacturing Intelligence division provides solutions that use data from design and engineering, production and metrology to make manufacturing smarter.
